

Reporting Suspected Abuse or Neglect of a Child in Texas: Reporting Basics

How does reporting abuse or neglect of children in Texas work? What do I need to do to make a report?

State law requires anyone who suspects child abuse or neglect to report those suspicions to the Texas Department of Family and Protective Services (DFPS) or to a local law enforcement agency.

Any person making a report to DFPS is immune from civil or criminal liability as long as the report is made in good faith. The reporter's name is also confidential and will not be provided directly to the accused person by any DFPS employee. *There are circumstances under which DFPS is required to disclose a reporter's identity to law enforcement, a court of law, or another state agency. Please see the section below on Confidentiality for more information.*

A person who suspects child abuse or neglect, but fails to report it, can be charged with a misdemeanor or state jail felony. Remember, reporting suspected child abuse or neglect makes it possible for a child to get help.

Report child abuse or neglect in two ways:

Telephone	Internet
<p>You may call the Texas Abuse Hotline at 1-800-252-5400 to report abuse or neglect. The hotline is answered by DFPS Intake Specialists (who are all degreed professionals) 24 hours a day, 365 days a year.</p> <p>You will be asked to provide your name and contact information.</p> <p>You will be asked to explain your concerns. The Intake Specialist might ask additional questions to determine if the situation that you describe meets the Texas Family Code's definitions of abuse or neglect.</p>	<p>You may report your allegations to the Texas Abuse Hotline through the Internet at https://www.txabusehotline.org. This secure website provides a way to explain your concerns in writing.</p> <p>You must provide your name and a valid e-mail address. Your identity remains confidential and will not be provided directly to the accused person by any DFPS employee.</p> <p>Once an Intake Specialist processes your report, you will receive a confirmation e-mail with a Call Identification Number. The e-mail will also tell you whether or not your report was forwarded to a local DFPS office for further investigation.</p>

Please note that the Internet Reporting System is for ***non-urgent situations***. Receipt of internet reports may be delayed during times of high call volume to the Texas Abuse Hotline. The Internet Reporting System should NOT be used in urgent or emergency situations, including but not limited to:

- Injuries to a child age 5 or under or serious injuries to any age child
- Immediate need for medical care (including a suicidal child)
- Sexual abuse where the perpetrator has access or will have access to the child in the near future
- A child age 5 or younger who is alone or is likely to be left alone in the next 24 hours
- Any other situation you feel requires a response within 24 hours

**Call in reports about these (and similar situations) to the
Texas Abuse Hotline at 1-800-252-5400.
Always call local law enforcement first if a child is in imminent danger.**

What information do I need when I make a report? What will I be asked to provide?

Intake Specialists need specific information before they can forward a report of abuse or neglect to a local Child Protective Services (CPS) office for investigation. This information includes the alleged victim's address (or other information to help CPS contact the family) **and** an allegation that indicates abuse or neglect as defined by the Texas Family Code.

Not every allegation reported to DFPS will result in a CPS investigation. This is because not every situation involving concern for a child meets the legal definition for abuse or neglect under the Texas Family Code. It is crucial that you provide as many details as possible about the alleged abuse or neglect, as well as the family demographics, so that the Intake Specialist can make an accurate assessment of the situation.

Before making your report, please take a moment to gather any records or notes you have on the family so you have easy access to the necessary information. While you may not have all of the information noted below, providing as much of it as possible will allow DFPS to make the best decision about how to proceed.

Persons Involved/Persons with Knowledge		
<p>Household Members All known persons living in the child's home (adults and children)</p>		
<p>Alleged Perpetrator(s) The person or persons suspected of abusing or neglecting the child. They may or may not be household members</p>		
<p>Collaterals Any other people who may have information about the situation. This may include school employees, neighbors, other relatives, medical staff, etc.</p>		
Information Requested for Each Person		
<p>Identification</p> <ul style="list-style-type: none"> • Name, • Date of birth (preferred) or age • Social Security number, • Race/ethnicity • Marital status 	<p>Location</p> <ul style="list-style-type: none"> • Home address (including apartment name and number) • Directions to the home • Home phone number & cell phone number(s) • Work • School, or daycare name • Address, phone number, hours in attendance, and grade level. <p style="text-align: center;"><i>Note: Multiple forms of locating information are important so we can find the family as quickly as possible. For example, having only a school address is challenging if we need to locate the family quickly on a Saturday morning.</i></p>	<p>Special Needs</p> <ul style="list-style-type: none"> • Do the child, parents, siblings, or alleged perpetrator have any special needs? • If so, how do those needs affect their normal functioning?

To send a report to CPS for investigation, an Intake Specialist also **must** have an allegation that meets the Texas Family Code definition of abuse or neglect. Giving as much detailed information as possible helps the Intake Specialist make as

accurate an assessment as possible. *This is especially important with Internet reports because the Intake Specialist cannot ask follow-up questions.*

Learning to identify child abuse and neglect and deciding to make a report is very distressing for many people. However, DFPS can more accurately assess a situation if you frame your statements as objectively as possible. Clear and detailed information allows the Intake Specialist to make the most accurate assessment possible.
